

# Keysight N2786A Probe Positioner

## User's Guide

The Keysight N2786A 2-legged probe positioner can be used for quick and stable hands-free browsing. The positioner has three different-sized apertures into which various sized probes can be placed. It supports most Keysight and non-Keysight oscilloscope probes. (Refer to the back of this user's guide for specific compatibility information.)

## Probe Compatibility

These Keysight probes are compatible with the N2786A:

- 10070C/73C/74C/76A
- N2862A/63A
- 1160A/61A/62A/63A/64A/65A
- 1156A/57A/58A
- 1144A
- 10433B/36B/37B/39B/40B/41B/42B

## Dimensions

Height	91.5 mm
Width	67 mm
Weight	51.5 g

## How to Use

To use the positioner, first determine the appropriate aperture for your specific probe. Insert your probe and then arrange the positioner/probe at the measuring point. The front of the positioner (the side with the Keysight logo) must be pointing up during use.
