N7015A TYPE-C TEST FIXTURE SETUP

Connection Steps

1

Power on the N7018A fixture by connecting it to the Infiniium Oscilloscope using the supplied USB cable.

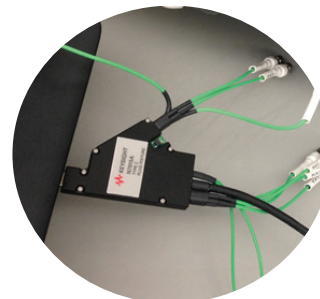

2

Connect N7015A to N7018A using the N7015A Type-C interface cable. Keep the red dot on the cable facing up to ensure proper signal identification.

3

Connect the 2.92 mm connectors of the N7015A to channel 1 and 3 of the Infiniium oscilloscope using the supplied wrench and an 8"-lb torque wrench (8710-1765).

4

Connect the N7015A to the Device Under Test.
